EDUCATION

Centennial College   **Jan 2021 - May 2023**
- Software Engineering (fast-track)

Gujarat Technological University, India   **Aug 2016 - Aug 2020**
- Bachelor of Engineering, Computer Engineering   **GPA –** 7.1/10.00

TECHNICAL SKILLS

Programming Language: JavaScript, C, C++, Java, python, C#
Web Technologies: HTML, CSS, Sass, JavaScript, ES6, ReactJS, Hooks, Redux, Git, NodeJs, Express JS, REST, Graph QL, Apache Maven
Database / other: Algorithms, JIRA, Git, SVN, Firebase, MySQL, DynamoDB, MongoDB, Firebase, AWS services, Azure, Tableau

WORK EXPERIENCE

Full stack developer, Zippia   **July 2021 - Dec 2021**
- Following agile and Test-driven development methodology; contributed in a web application using technologies such as **ReactJS,** Hooks, **Node js**, Material UI, **HTML5**, **SCSS** for COVID-19 project of 3 countries: **Canada, England and Netherlands**.
- Branching, pushing, merging code on GIT, while maintaining SDLC and CI/CD pipeline. Implementing unit and system testing with Jest. Working in **agile** and fast-paced work environment includes daily stand ups/**SCRUM** meetings and sprint planning.
- Deploying application, monitoring their performance and maintaining them in the production using cloud-based architecture (AWS, GCP, etc)
- Databases with **MongoDB**, **Mongoose, NodeJS, Express Js**. Integrated **GraphQL** for fast and flexible data retrieval

Front-end developer, Big-scale Technologies Pvt Ltd, India   **Dec 2019 - Jun 2020**
- Implemented pixel perfect websites with user-friendly and responsive UI using **Bootstrap4**, **Ajax**, **ES6** and **jQuery**.
- Developed and modified the Web Application and software (multi-tiered web applications) using **React-Redux**, HTML5, JavaScript, CSS, **SCSS**, web forms technologies.
- Quickly grasped new techs (**Django**) for new project and ensured cohesive experience across various devices-browsers.

Software Engineer Intern, Tvadartham Technologies, India   **May 2019 - Aug 2019**
- Implemented, troubleshooted and debugged complex Java software from the scratch, using Software Development lifecycle (SDLC) in Agile environment with the help of Track IT.
- Built Java based software for RDBMS Data integration using Java JDBC, Java Spring and JavaFX.
- Extensively worked on writing Stored Procedures, Triggers, Functions, Views and Database Design with Oracle and IBM I
- Managed, debugged and add new functionalities and features for all the web applications.

PROJECTS :-

- **RESTAURENT MANAGEMENT APP**
  React, Redux-saga, PostgreSQL, Node.js, Express, Next.js
- **INSTAGRAM – THE SOCIAL PLATFORM**
  React, react-router, axios, react hooks, rest-api, react-bootstrap, mongodb, mongoose, express JS, NodeJs
- **MINI PROJECTS**
  Sudoku, Calculator, Resume maker, News Application, pixel perfect responsive, tic tac toe, E commerce – JBL store.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Hackerearth coding :- https://www.hackerearth.com/@shivammaniya7469
- Contributed as a Sports coordinator and won a gold-medal as a captain **of** kabaddi tournament at State level in 2020
